Harbor Family Medicine

210 Fore Street, Portland, ME 04101 · (207) 555-0148

After Visit Summary
Aug 12, 2026

Patient
Dana Reyes

Date of birth
Apr 3, 1988

Visit date
Aug 12, 2026

Provider
Elena Marsh, MD

Reason for visit
Follow-up: blood pressure recheck

VITALS

Measurement	Result	Units
Blood pressure	128/82	mmHg
Pulse	68	bpm
Temperature	98.4	°F
Weight	141	lb
Height	5' 6"	
SpO2	99	%

ASSESSMENT

Blood pressure improved since the March visit after reducing sodium and adding three walks a week. Reading today is in the elevated range but no longer stage 2. No medication changes.

PLAN

Continue lifestyle changes. Home readings twice a week; bring the log to the next visit. Recheck in six months, sooner if home readings exceed 135/85. Lab work from today attached separately.
