Blood pressure	136/88	mmHg
Pulse	74	bpm
Temperature	98.2	°F
Weight	146	lb
Height	5' 6"	
SpO2	98	%

ASSESSMENT

Healthy adult. Blood pressure elevated on two readings today. No symptoms. Discussed sodium intake and regular exercise.

PLAN

Lifestyle changes first: limit sodium, 150 minutes of activity a week. Recheck blood pressure in five months. Routine labs at the next visit.
